- Both personal and vehicle documents should always be with you.
- The technical conditions of the vehicle will be checked at the time of registration.
- Front and rear plates securely fastened in place

The Car Category will be divided in two main classes:

1. Modified
2. Production

In the “Modified” class are allowed all the changes that each competitor believes to improve his time in the race.

In the class “Production” are allowed a few modifications.  
If the modifications are overtaken this will result the vehicle to be classified as “Modified”.

### **THESE MODIFICATIONS ARE:**

- All the changes that you judge for the internal security of the crew are allowed.
- You can fit the tires of all types and sizes (but without cutting into the body or cab).
- Can be mounted springs and shock absorbers improved (attached only to the original points).
- It is allowed a second shock absorber for each wheel (of the same type and principle)
- Are allowed all the elements that help but are not a factor in the pure performance: lights, winches, etc.

### **ARE NOT ALLOWED**

- Displacement of the aggregate from their stock place.
- Significant changes in the engine / transmission / differential / clutch
- Any change, modification, or cutting of the body.
- Moving, absence or heavily modification of the bumper form.
